

MASSACRE IN PEKING IS NOW QUITE CONFIRMED

Not One Foreigner Is Left to Tell the Bloody Story.

TORTURE AND DEATH FOR THEM ALL

Astonishing and Awful Details of the Cruel Death of the Russian Minister and His Lovely Wife—Czar and Czarina Wept Bitter Tears When They Heard the Dreadful Tale—No Details as to the Death of Mr. Conger and His Family or the English Minister—Cries of Vengeance Fill the Air in Europe and America.

Shanghai, July 14—[Special Cablegram]—The Prince Sheng, director of telegraphs, announces to the consuls the murder of all the foreigners at Peking on July 7, laying the blame on the anti-foreign General Tung Fuh Siang.

Sheng's message says that Gen. Tung, enraged at the defense made by the British legation, ordered heavy guns to fire, demolishing the legation and setting the ruins aflame. The result was annihilation of the foreigners.

Tortured and Boiled to Death.

London, July 14—[Special Cablegram]—The story printed says the Russian minister at Peking, DeGiers, was boiled to death and the remains thrown to the dogs and that Madam DeGiers suffered tortures worse than death, is confirmed. It is very likely that all foreigners were submitted to horrible outrages.

London, July 14—[Special Cablegram]—Official advices from the British consul at Che Foo are to the effect that all foreigners, including the ministers and ambassadors, and the women and children were tortured and murdered by Chinese mobs and soldiers on June 7.

Not a soul is known to be alive to tell the awful story.

The legations, assisted by Prince Ching's troops held out against fearful odds for ten days but were finally overpowered and killed.

The women and girls are said to have been horribly maltreated.

The excitement in London and other European capitals takes the wildest form. A bitter bloody vengeance is threatened against all concerned in the terrible slaughter.

Confirmed at St. Petersburg.

St. Petersburg, July 14—[Special Cablegram]—An authentic dispatch from Peking confirms the death of Minister DeGiers and the entire Russian legation members. Also those of other powers.

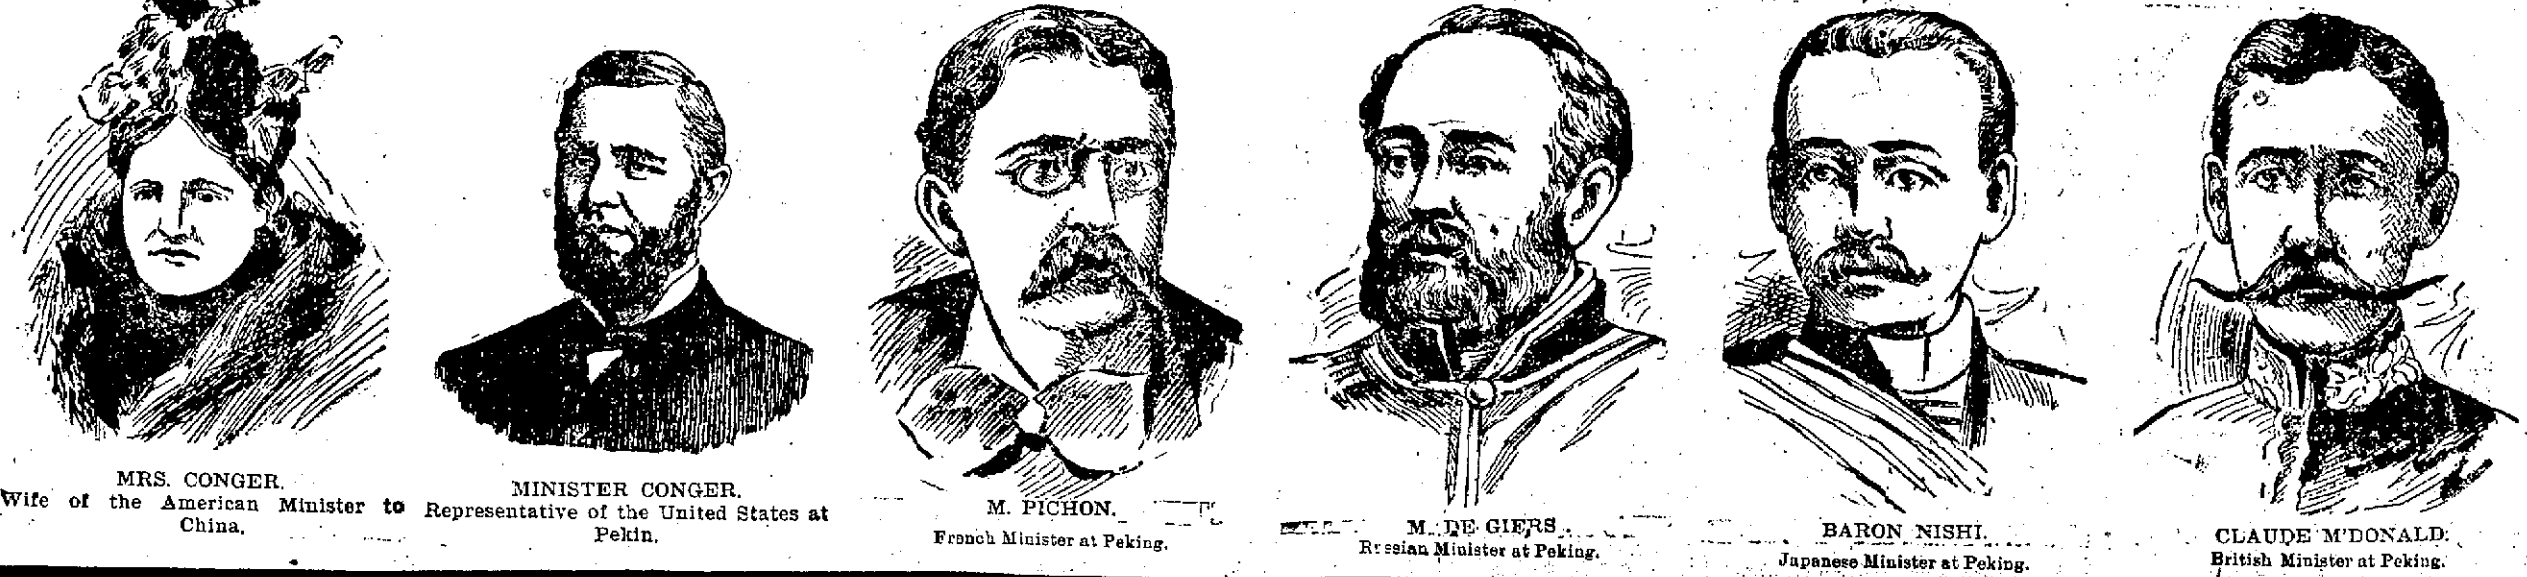

It says that DeGiers was dragged through the streets tortured and then boiled alive by the boxers.

His wife suffered the same fate.

The Czar and Czarina are prostrated with grief. There is hardly any room for doubting the awful news.

St. Petersburg, July 14—The czar has received with great emotion the dreadful details of the catastrophe at Peking. Tears coursed down his majesty's cheeks as he read the cablegram from Admiral Alexeyeff at Port Arthur confirming the horrible details of assassination of Mr. de Giers, which merely, in form of rumors, had already reached Russia. The admiral declares that the Russian envoy was dragged through the streets by the Boxers, insulted, beaten and tortured, and even thrown into a great kettle and boiled to death. Then the remains were thrown to the dogs. While M. de Giers was being disposed of the fanatic mob danced around the cauldron.

THE FOREIGN MINISTERS WHO WERE FRIGHTFULLY TORTURED AND MURDERED IN CHINA.

to the relatives of the Russian martyrs in China was accompanied by heartrending scenes. Count Lamassdorf received the friends of the murdered ones at the foreign office and unfolded to them the tragic story. The scenes of frenzied terror and grief that followed were unspeakable. The building of the foreign office was besieged by an excited throng and the whole of St. Petersburg is full of lamentation.

NO DOUBT THAT ALL ARE DEAD

Effort to Get a Message to Minister Conger at Peking

Washington, July 14—The developments of the next twenty-four hours will, members of the administration believe, confirm officially the massacre of all foreigners at Peking. The reports of Consul General Goodnow have earned for him explicit confidence on the part of state department officials. No hope is held out that any of the foreigners escaped, and it is feared that the women and children attached to the legations suffered the fate of the men.

Effort to Get a Message to Peking

With one last recourse available, Secretary Hay today accepted the offer of the Chinese minister to demonstrate the accuracy of the Chinese representations and furnished Minister Wu a cipher dispatch, which the latter has undertaken to have delivered to Minister Conger in Peking. Mr. Wu is confident the message will reach the American minister, but Mr. Hay does not expect to receive a reply.

Note Written in Cipher

The message was placed in cipher in order that Minister Conger might not be suspicious of it and might reply in the same manner, so that the officials here could be assured of the genuineness of the reply. This message, accompanied by an explanation, given by Minister Wu, was cabled to a friend in Shanghai. The minister urged this gentleman to do all he could to expedite the delivery of the state department's message. He believes it will be telegraphed to Peking and from thence conveyed by messenger to the capital. He does not expect an answer for some days.

Large Armies From All Lands

Reports reaching Washington concerning the preparations being made by European nations and Japan to place armies in China indicate that the international forces will reach enormous proportions. Japan will throw one corps of 22,000 men into the empire at once, and Russia will be represented by from 40,000 to 50,000, most of the soldiers of the czar coming down from the northward. England is to have over 50,000 men and Germany probably half as many. France, the United States and Italy will be represented by from 10,000 to 15,000 each.

To Rush Reinforcements

In army circles it is the belief that both Japan and Russia will greatly increase their forces beyond the estimates now given and that England and Germany and may be France, will rush reinforcements to China, to the extent of probably doubling the forces they have announced.

The United States will hasten the departure of troops under order for the Philippines that they may be diverted into China to participate in the work of pacification, and it is confidently predicted about the corridors of the war department that additional regiments are to be sent from the Philippines despite Gen. MacArthur's report that they cannot be spared.

Gen. Miles has issued a circular announcing that recruits are required in large numbers for the artillery, and directing recruiting officers to make special efforts to obtain men for that arm of the service.

Are All Slain By Boxers.

London, July 14—A news agency report says that an official message received in London states that all the foreigners in Peking were murdered on July 6.

Washington, D. C., July 14—The department of state has received a dispatch from Consul-General Goodnow at Shanghai, saying that the governor of Shanghai cables that the Boxers and soldiers were bombarding the legation for a final attack on July 7. He is extremely anxious for the safety of the ministers and friendly Chinese in Peking. The consul adds that fears of the worst are generally entertained. The state department also has received a dispatch from Consul McWade

TEACHERS ADOPT THEIR PLATFORM

EXTENSION OF SCHOOL SYSTEM TO THE COLONIES.

Convention in Session at Charleston Demands Broader Educational Work at Home and Abroad—Resolutions Suggest That the Bureau of Education Be Given Higher Standing.

Charleston, S. C., July 14—The school men and teachers of the National Educational association issued their declaration of principles last night at the closing session of the convention.

In the declaration, which forms the platform of the association, are the recommendations of the college presidents, school superintendents, and teachers upon all prominent school questions under public discussion.

It contains their demand for the extension of the school system to the islands and for the raising of the bureau of education to the position of a department equal to that of the department of labor, if not to that of a cabinet office.

Bureau to Take Charge

The recommendations were that the bureau of education thus raised to a department standing in the federal government be given direct charge of schools in Alaska, Cuba, Porto Rico and the Philippines, and that it be enabled to make provisions for the education of white children in the Indian Territory. The resolutions declared against a tendency of the rich to have their children educated outside of the public schools and stated that any movement to conduct the schools simply for the poor or the "less-well-to-do" was directed against the interests of common education.

Trade Instruction Investigation

An investigation of the possibilities of trade instruction in relation to manual training was ordered by the manual training department in the afternoon, and a committee was appointed to have charge of the investigation. The purpose will be to discover if it is expedient to have courses in the schools which shall fit the pupils for trade occupation at the close of their schooling.

KRAENZLIN WON THE FINAL HURDLES

American Athletes are Decidedly In It at the Games in Paris Today.

Paris, July 14—[Special Cablegram]—The international athletic games in connection with the exposition began today at the Paris racing club. Thousands are attending, this being a national holiday. Thirty-five Americans competed. Kraenzlin of Pennsylvania, won the final hurdles in fifteen and a fifth seconds, Bauer the Hungarian won the discus. Jarvis, of Princeton, won the hundred yards in eleven seconds.

W. R. C. FLAG SOCIAL

An Enjoyable Time Last Evening at the Home of Mrs. S. L. James on Jackson Street.

The ladies of the Women's Relief Corps held a flag social at the home of Mrs. S. L. James, South Jackson street, last evening. The trees were hung with Chinese lanterns and the porch was decorated with a profusion of small flags and bunting. Ice cream and cake were served at small tables on the lawn, the ladies of the corps dressed becomingly, attended to the wants of their patrons. The evening was quite cool for ice cream, so there was not as large a gathering as was expected, however, the ladies succeeded in disposing of a goodly quantity of the frozen dainties. The G. A. R. drum corps was present and furnished stirring martial music for the occasion. All those in attendance report a very pleasant time.

GORMAN MERELY A PRIVATE

Declares He Will Take No Active Part in the Bryan Campaign

Baltimore, Md., July 14—Former Senator Gorman will take no active interest in Bryan's campaign this year than he did in 1896. When seen on his farm at Laurel, Prince George's county he declared that he had not the slightest intention of managing the New York or eastern end of the democratic national campaign, as has been suggested by party leaders in the West.

"I am taking no part in managing campaigns," continued the Maryland leader. "I did not do this in my own state last year or two years ago, and I will not go into the business now. I shall support the ticket, as I always do, but I shall be a private in the ranks."

CUT RATES TO GERMANY

Reciprocity Treaty, Which Was Proclaimed Today Grants Lower Duties on Certain Imports.

Washington, July 14—The German-American reciprocity treaty was proclaimed today. By its terms the United States is formally secured in its enjoyment of the minimum tariffs granted by Germany to its commercial friends—a privilege which this country has held heretofore without granting any equivalent.

Now, in return for this favor, the United States is to grant Germany a reduction of duties on still wines, paintings and statuary. The amount of the reductions is fixed by the Dingley act.

The arrangement does not specify the articles upon which German duties are to be reduced; such reductions are covered by the general statement that the minimum duties apply to them.

The German government has consented, on the earnest request of the United States minister at Berlin, Mr. White, to modify the new meat inspection bill so that it will not interfere with existing contract obligations of American exporters.

By this arrangement all present contracts will be carried out on the present basis of inspection, and the new system will apply after there has been opportunity to make contracts with the full knowledge of the changed condition of affairs.

The act does not in terms state when it shall go into effect, but it has been understood that the branderath would fix Oct. 1 as the date. Preliminaries may even carry the date forward to January next.

From that point he went in 1843 to Burlington, Ia., where he has ever since resided. He was for many years an active politician, serving one term as mayor of the city, three as member of the legislature and two as governor of the state. In 1888 and 1889 he was elected to congress. His majority was about a thousand each time, but in the cyclone of 1890 he went down, receiving but 16,888 votes to 17,459 for Mr. Seerley.

The finals for the Richardson trophy will be played off on the grounds of the Mississippi Golf club next Tuesday afternoon. The match will be between Albert Schaller and Charles Dunn.

FROM ALL OVER THE GREAT WORLD

Christian Endeavor Workers Gathered in Convention at London.

MEETING OPENS TODAY

The Outposts Bivouacked and the Flag Planted on Alexandra Palace.

A MINIATURE CITY IN WHITE

London, July 14—[Special Cablegram]—The Christian Endeavorers planted their flag on Alexandra palace today, and are in undisputed possession of the hills and woods that are to be the scene of their world's convention. The great assembly hall, on a commanding eminence of one of London's most charming country nooks, looks down on the miniature city in white, where "Father" Francis E. Clark's christian outposts are bivouacked.

As for the palace itself, its beauties rival those of the surroundings. Its broad area is bathed in bunting, the flags of all nations being intertwined with emblematic designs and scriptural mottoes, the preponderance of union jacks and stars and stripes that greet the eye at every turning, bespeaking the alliance of American and English hearts, which seems to be the underlying inspiration of this great gathering of young churchmen and churchwomen.

Convention to Open Today.

Yesterday was devoted to all day prayer meeting in Wesley's chapel, London, at which fourteen different leaders presided for as many hours. The opening of the convention proper took place this morning, distinguished by an elaborate musical service and concluding with a welcome meeting in the evening at Royal Albert hall. Dr. Clark, Mrs. Clark and John Willis Baer are the Americans who will participate in the exercises of the first day.

Christian Endeavor sermons will be preached in hundreds of London pulpits tomorrow and a woman's meeting at night will be addressed by Miss Elsie Travis and Mrs. H. N. Lathrop of Massachusetts.

American Delegates Delayed.

The destruction of the North German Lloyd steamships at Hoboken has operated materially to diminish the attendance of American delegates, which thus far is small. A boat due today, however, will bring several hundred, including a score of ministers who are on the program.

Among the speakers, the Rev. Mr. Sheldon of Topeka and Dr. George Loring of Boston are already here, while among those coming are the Rev. Maltbie D. Babcock of New York, Bishop Arnett of Ohio, Bishop Walters of New York, Dr. W. Floyd Tomkins of Philadelphia and the Rev. S. M. Campell of Chicago.

GOEBEL TRIAL IS ON

Commencement of Testimony and Opening Statement by Attorney for the State.

Georgetown, Ky., July 14—The first of the Goebel trials was fairly launched this morning by the commencement of testimony. The opening statement of prosecution seemed to indicate that an attempt will be made to prove that the same man who fired the shot which killed Tom Baker was Goebel's assassin. Civil Engineer Woodson presented plates of the capitol buildings and grounds.

J. G. DeLong is visiting friends in this city. He will remain until Monday.

JUDGE DUNWIDDIE MISSED HIS TRAIN

Left His Car at Harvard and While Visiting With Some Friends His Train Went On.

The lawyers of the Rock county bar are thinking of having a guardian appointed for Judge Dunwiddie. Wednesday morning the Judge left Janesville on the early morning train bound for Cincinnati, via Chicago. It seems that on the morning train a car is left at Harvard, and the passengers notified to that effect. The Judge took his grip to the other car, found a vacant seat, left his grip and returned to the car he had left and entered into conversation with some friends who were not going through to Chicago and intended remaining in the car.

They reminded the Judge several times to keep watch of his train or it might go off and leave him; the Judge said he was keeping watch of it so as not to get left. A few moments later he looked out to see about his train and saw it disappearing in the distance. The Judge kept watch of it until it was out of sight then settled himself in the waiting room of the station to wait for the next train which came through Harvard some three hours later.

The Judge left home on the early train in order that he might have a few hours in Chicago before going on to Cincinnati, instead he telegraphed the conductor to take charge of his grip and he spent his time between trains in Harvard instead of Chicago as contemplated. The next time the Judge will try and keep a closer watch on his train and not let it get so far away when he commences watching it.

AUTO TO SUPPLANT THE MULE

Wisconsin Mail Carrier Asks Permission to Make the Change.

Milwaukee, July 14.—Henry Nachtfeldt of Green Bay has sent a petition to the postal authorities at Washington asking for permission to abolish his mule team for carrying mails from Shawano to Green Bay and substitute therefor an automobile. It will be the first automobile route in the country.

Mr. Nachtfeldt made the request of the postal authorities some days ago, and Inspector Ralph Bird of this city, has been making an investigation as to the feasibility of the project.

He finds that the road between Shawano and Green Bay is a splendid one for an automobile run, and thinks that Nachtfeldt's plan is a good one and worthy of consideration. He will so report to the postal authorities.

ART OF ADJUSTING GLASSES TO EYES

Good Operator Must Understand the Construction of the Lenses—This One Branch a Study.

To become proficient in the adjustment of spectacles and eye glasses is a much more difficult task than most people realize.

One must be perfectly familiar with all the branches of the profession in order to obtain perfect results. Merely fitting the eye with perfect lenses does not constitute all the work; if the frames are not fitted and adjusted correctly the whole work is lost. A thorough operator should understand the construction of the lenses from the rough material until they are ground, finished and polished ready for the frame, not only to know that the strength and construction are correct, but also that the quality of material is right.

This one branch alone is a study and there are but few opticians who are familiar with this detail.

W. F. Hayes, the eye specialist, at F. C. Cook & Co., is thoroughly acquainted with every part of his business; his actual practice for the past eighteen years has brought him in touch with the most difficult cases; in this time he has fitted to glasses over 1,200 persons, a record he may well feel proud of. He has many recommends from people in Janesville and surrounding towns and from all over the state. During the past three years he has devoted his entire time to eye work; he is connected with two of the largest optical goods manufacturing concerns in the country. This gives him an advantage in studying the detail of lens and frame making that but few operators enjoy.

Mr. Hayes is a graduate from three of the best optical colleges in the United States and holds diplomas from each. He is now pursuing another course which includes the diseases of the eye. This branch is by no means foreign to him having given it much time and study. He has confined himself however, to refractive work entirely as it is not possible to do justice to both. If your eye sight bothers you in any way consult Mr. Hayes at once. He is in the city Saturday and Monday of each week at F. C. Cook & Co., and can help you. In no case will glasses be fitted where the eyes require treatment instead.

NATIONAL BAN ON TIPS LIFTED

Sleeping Car Porters Rejoice at Comptroller of Treasury's Decision

Chicago, July 14.—"Tips go with Uncle Sam's men," was the message from Washington, D. C., yesterday that brought smiles to the faces of all sleeping car porters who heard the news. The jubilation and message were the result of a decision by the comptroller of the treasury department that the customary 25 cents for a Pullman shine and brush down would pass the government's auditors as legitimate expenses.

Information of this federal recognition of the "tip" came to Benjamin C. Johnson, president of the Porters' Guide and Promoting association, in a telegram from the organization's agent in Washington, S. E. Ackerman, a contract nurse, had won his fight to have his expense account passed with the "tip" included. Johnson lost no time in passing the good word along the line.

St. Louis, Mo., July 14.—Two thousand solicitors engaged by the trades and labor unions of St. Louis to canvass the city and collect contributions for the striking street railway men's bus lines began work today. In addition to collecting funds for this project the solicitors are expected to ascertain what proportion of the population is in favor of trades and labor unions. Eight boys are being held by the police pending investigation into an assault on William Johns, aged 17 years, who was attacked by a crowd of youths when he alighted from a Broadway car Tuesday afternoon. The boys are from 16 to 17 years of age. Late last night an explosion occurred on the Easton avenue line of the Transit company. The car ran over an explosive supposed to be dynamite, which shattered the front truck of the car, which was otherwise damaged. Nobody was injured.

A car on the Broadway division of the Transit company ran over an explosive soon after midnight near Broadway and Utah streets. The forward trucks of the car were shattered badly and several windows were broken. Those on board the car were not injured. Two bricks were thrown through the side transoms of a car of the Sixth street line in Hickory street. Pieces of flying glass struck Edward Scrode and his son George of 4041 S. Broadway, but no other passengers were hurt.

MAY SEND GEN. FRED GRANT

Son of Former President Fated for Service in China

Washington, D. C., July 14.—Brigadier General Fred D. Grant will probably be assigned to duty in China.

It is understood on good authority that General Grant's name is being considered by the secretary of war with a view to ordering him to report to Brigadier General Chaffee for duty in China. Army officers who were spoken to today relative to the prospect of General Grant's assignment to the far East approved the selection, not alone because of General Grant's soldierly qualities, but because of the weight his name is expected to have with the Chinese.

Michael Kaufman, Agent of Deering Harvester Company in Madison, Is Arrested.

Madison, Wis., July 14.—Michael Kaufman, general agent of the Deering Harvester company, with headquarters in this city, was arrested last night on the charge of embezzling \$5,909.09 from the company. The warrant was sworn out by George Hildebrand of Chicago. Kaufman admits the shortage, and says he is ready to plead guilty to the charge.

Kaufman, who is one of the best known farm implement men in the state, has been general agent of the Deering company nine years. He was formerly a traveling salesman for a wholesale hardware firm. Dozens of local agents in the southern portion of the state work under his direction and make returns to him. In this way he handled thousands of dollars annually for the company.

Winfred S. Chase

Word was received in the city yesterday of the death of one of Janesville's earliest settlers, Winfred S. Chase, which occurred at Portland, Oregon. Mr. Chase was born at Providence, R. I., August 30, 1819, and came west and settled on a farm near the present site of Janesville in the early forties. Later he removed to Janesville and several times engaged in business enterprises here. About ten years ago he removed to Portland, Ore., where he lived when death resulted from old age. Four children are left, two sons and two daughters, Edwin T. Stuart S., of Portland, Oregon; Mrs. E. G. Samuels of Darlington; and Mrs. George H. Strout of Portland.

First Gun Fired....

Just now when Shirt Waists are a necessity we will give women a rousing benefit by making a great cut in prices. Stanley Shirt Waists are well known, and today take the lead for perfection in make and style. Naturally at this time our stock is somewhat broken but we still show many excellent ideas in waists.

COLORED WAISTS—Prices as they look after being shoved full of holes:

50c } Waists, 48c
75c }
\$1.00 }
\$1.25 } Waists, 83c
\$1.50 }

WHITE WAISTS — Many beautiful creations, the prettiest things ever shown here. They are much superior to white waists usually found in stores. Shattered Figures:

\$1.25 waists, 95c.
1.50 waists, \$1.25.
1.75 waists, 1.40.
2.00 waists, 1.65.
2.50 waists, 1.85.
3.00 waists, 2.25.
3.50 waists, 2.85.

Don't put off coming if you need any waists. An opportunity like this to buy "Stanley" Waists at the present prices is worth taking advantage of.

The Ball Rolls....

After the 4th people are looking for bargains, and we start the ball rolling by offering 50 pieces of Fancy Dimities, that have been 8c and at that figure selling readily, — in light and dark stripes and figures, large variety of patterns; made up with a little trimming of ribbon or lace, looks like more expensive material, nice for wrappers, by offering these Dimities at 6c.

Linen Skirts.

We have received many compliments on our showings of summer skirts. Our skirts hang true, they have merit and the sale has been large. We are letting them out now at cut prices. Investigate.

Petticoats at 95c.

The petticoats are made of light weight duck, gislatea cloth and silkette, in small figures and pretty stripes, light, medium and dark colors. They have an adjustable yoke band, wide ruffled flounce, and the former price, \$1.25, was considered reasonable for them.

WOMEN who are about to take a trip will find this store a good place to get anything needed to complete their wardrobe. Our new \$5.00 Jaunting Skirts made of reversible plaid suiting, stitching around bottom, straps, inverted pleat in back, in mixtures of blue, light and dark gray, are great value.

HINTS TO THE
SUMMER GUEST.Some of the Little Things
She Does to Her
Guest.

BY CALLA ROBELY HAINES.

This is the season in which those who are bound in by city walls look forward to the time when their country friends will remember them and offer a few weeks' hospitality in their woodland and seashore homes. Some few hints as to the demands a hostess makes upon a guest will not be out of place nor, I hope, unkindly received.

The first obligation on the part of the guest is to keep the date originally decided upon and to arrive at the stated time instead of postponing the promised visit to the possible intrusion upon the hostess' plans for other guests.

If for some unavoidable reason a guest should be unable to arrive at the appointed time, she ought not to expect to remain longer than the original date. A hostess would naturally press her to remain a few days longer, but don't, I pray you, no matter how jolly a time is on hand. That there are times when to refuse would be to offend is not unusual, but as a rule it is best to be on the safe side by not remaining long enough rather than by spoiling a visit by even a day.

When you do arrive, make yourself at home just as soon as ever you can. A hostess is so much more comfortable if you will roam into the library and pick out the book you want and find some place to enjoy it if you desire or take a ramble in the fields for an hour without her having to tag after you, always anxious lest you chance to be lonesome or lacking amusement.

During certain hours of the day the mistress who attends to her own house-keeping has some duties to which she must give her personal attention, and if as a guest you can amuse yourself, giving her the leisure to attend to them, you will go down on her list of visitors as one of a cherished few. She will get as much pleasure out of your visit as you do, which, on the whole, is no more than right.

There are few duties imposed upon a guest, but one of them is to keep her room orderly. Usually the guest chamber is the best room in the house and often has the prettiest furnishings. That guests fail to appreciate this is only too evident, judging from the manner in which belongings soon be-

GUESTS SHOULD ARRIVE WHEN EXPECTED, come scattered about and dishevel the whole apartment. Often a hostess is truly ashamed to leave the door of her guest room open when it is occupied because of the disorderliness within, and yet what lady with the least little bit of consideration for her friend's feelings would dare to right that untidiness or permit her maid to do so?

A friend of mine while speaking of a mutual acquaintance remarked that Miss X was the dearest girl, but she added sotto voce, "She is so untidy." My silent response was, "She has visited you, too, has she?" But of course I did not express it.

To inquire the time of the family meals and be punctilious in keeping it is a duty. To you a few minutes' delay will make little difference, while a meal kept a half hour after it is ready for the table is usually spoiled.

If your hostess is accustomed to an afternoon siesta, it would be very considerate on your part to retire to your own room or if you are not one of the sleeping kind find out some shady spot and leave her for awhile. Many an overanxious hostess has suffered by reason of the inroad made by thoughtless guests upon that hour sacred to Morpheus.

To provide entertainment for a guest is the one object of a hostess, and she is particularly happy when friends assist her in giving you a good time, but don't if you prize friendship ever be tempted to accept an invitation in which she is not included. To accept one unless it comes from a member of her own family would be the greatest insult that you could offer to her. Concerning the person who extended the invitation no remark is necessary.

Thoughtless persons with the most tender hearts have no idea how often they hurt the friend with whom they are visiting. Only remember that you are the guest and that with your hostess rest the manner and the means of entertainment.

The pleasure of entertaining would be greatly increased if only guests would remember to do as they would be done by and not forget those little things which annoyed them when they in turn were the hostess.

GOLD DEMOCRATS SHUT OUT.

W. D. Bynum Explains the Obstacles in New York.

Washington, July 12.—"The gold Democrats will not put a ticket in the field this year," said W. D. Bynum, of Indiana, chairman of the gold Democratic executive committee in 1896. "We can not get our electors on the official ballot in New York because no votes were cast for the party candidate for governor in 1898, and the state law requires that a certain number of votes shall have been cast for state officers in the preceding election before the nominees of any party can go on the official ballot in the pending contest. Our party organization in New York was abandoned two years ago. The only way we can have our candidates for electors put on the official ballot is by petition of a certain number of voters in each county, an exceedingly difficult thing to do in the present case, as the members of the gold Democratic party have affiliated themselves with one or the other of the old parties on the new issue. New York is the one state where our ticket might do the Republicans some good, and if we can not get on the official ballot there is little use in nominating a national ticket. The new Australian ballot laws in other states also operate against independent movements."

Root Talks of Cuba's Future.

Washington, July 14.—Secretary Root in discussing the coming constitutional convention in Cuba expressed himself quite positively on the question of annexation. He said: "My own experience in Cuba leads me to believe that the desire for independence is both strong and general among the people. I do not think they want annexation, even supposing that we want them. Under the congressional declaration we are in honor bound to give them independence first. If subsequently they wish annexation, that is a matter for them to determine, but it should be determined when they are in a position absolutely independent of us. Even then, as I have suggested, it is a case where it takes two to make a bargain."

GUMPTION.

ONE does not have gumption till one has been properly cheated." Persons of gumption are using Ivory Soap, women who have trusted themselves too near the precipice of false economy and who can now appreciate the true economy in a soap made of pure vegetable oils and other high-class ingredients, but made in such quantity as to bring the price within the reach of the very poorest family. Indeed it is the very poor who most need it, for they can least afford the extravagance of common soap.

LAME IN ONE LEG ONLY

The Beloit Free Press makes this prediction:

The Janesville Gazette says: "Janesville should advance. Right you are, and is she will just wait a year or two Beloit will grow up to her and push her onward without any effort on her part."

Not this year, Mr. Beloit. There was a time when such a thing would have been possible, but Janesville has adopted a new policy and is again on the up grade.

Beloit beats us to death in the matter of a police department, but in all other departments, Janesville leads. The Line City has five uniformed policemen, a patrol wagon ready for all calls, and will build a handsome police station soon. Janesville, however, sticks to the old village plan of no system at all. No wonder Beloit people laugh when they contemplate the police arrangements here. And Janesville deserves to be laughed at, too. If the Bower City stays behind the times even in one respect, she can expect nothing else.

Milwaukee Sentinel—If there are candidates in the field already for United States senator, the people have a right to know that fact, and, in any event it would not be wise for any state senator now to bind himself to any candidate, when the election is so far distant and when no one can tell what public or party sentiment may be two years hence.

The county campaign is beginning to open up. A dispatch from Clinton says:

At the town and village caucus held yesterday, the delegates are supposed to be favorable to Henry Tarrant for treasurer, Mr. Matpress for sheriff, La Follette for governor, David Thorne for superintendent and L. H. Parker or some other good Beloit man as assemblyman.

The gold democrats will not put a ticket in the field this year, but instead will recommend that the gold democrats will vote against Bryan and free silver. This is a sensible plan. There is no use of beating about the bush.

Will Admiral Dewey, democrat, vote for Bryan? We think not. Admiral Dewey isn't much of a democrat as democrats go these days.

Henry C. Payne has been appointed vice chairman of the national republican committee. The appointment is an excellent one.

An Omaha man sheds his skin each year. Probably he is a politician.

ABOUT MR. WHITEHEAD

Should Be Re-Elected Senator.

Lake Mills Leader—Our first choice for governor, Hon. J. M. Whitehead, has retired from the list which seems to strengthen Mr. La Follette's chances for nomination by many degrees, clearing the way in fact for almost united move in his favor. The most reasonable thing that can be done will be for all republicans to rally around this brilliant statesman, and by an unopposed vote nominate him and thus show that harmony prevails in the party, and that he will

get an undivided support in the campaign and at the polls. Mr. La Follette has buried the hatchet; now let those who have hitherto antagonized him do the same, and Wisconsin will give a royal account of herself at the November election.

State Senator John M. Whitehead, who has been a prominent candidate for the office of governor, has withdrawn from the contest, reducing the number of candidates to three: La Follette, Stebbins and Rogers, and by the appearance of the political weather clouds at present, Rogers and Stebbins had better hop into their safety collars before the La Follette cyclone strikes them and unroots their aspirations. The political storm centered around to be at Madison and is daily gathering force, and a cloud burst is promised which will make ordinary political umbrellas of no use, and those who trust to them are likely to get drenched, so those who are now in the track of the storm had better seek coverings and let her go.

Mr. Whitehead withdrew after mature deliberation and consultation with his friends, and his action would have been different had he not seen that a stampede toward La Follette was coming, for he is not cowardly and had there been fighting ground left for him he would have remained in the field and fought it out.

None of the three candidates who have withdrawn have declared their choice, but their action in withdrawing may be but to mean that they think there will be but one candidate left when the convention assemblies on the 8th of August and his name is Robert.

As Mr. Whitehead made such an excellent senator, as everybody has acknowledged, it is no more than reasonable to suppose that he will now seek a re-election, and should he do so it is to be expected that he will get royal support all through his district. He is a hard worker, an able and progressive man, one in whom his constituents can have confidence as a legislator, and who will fight hard for all needed reforms demanded by the people of the state. This is a year when good selections should be made, selections that will give strength to the general ticket, and Mr. Whitehead's name will do that. If his home county will stand by him and we think it will, we think he will have little, if any, opposition.

Wagon Is Loaded

Elkhorn Independent—Bradford and Whitehead have both withdrawn from the contest for governor on the republican ticket, and now there are thousands of political orphans in the state. La Follette's wagon seems to be loaded down, and about all the orphans can do seems to be to stand and see the procession go by. But when he is nominated, then he belongs to the entire party in the state, and every member should do what he can to elect him.

No Show for Democrats

Delavan Enterprise—The natural candidate of this district, Hon. J. W. Whitehead, having dropped out of the race, leaves our people at liberty to show their preference for that able statesman, lawyer and politician, Robert M. La Follette. No man in the state is more capable of filling the governor's chair than "Bob" La Follette, and the outlook now is that he will receive the nomination by acclamation. With him as the nominee on the republican side, the democrats may as well not put up a candidate at all.

TAKEN TO THE HOSPITAL

James Murphy, Hurt Yesterday Was Removed From His Hotel.

James Murphy who was so badly injured by falling from the trestle of the Janesville & Southeastern railroad at Clarion street early yesterday morning, was taken from the Janesville Hotel, where he had a room to Mrs. Henderson's hospital on South Main street this morning. Dr. Joe Whiting, the company's surgeon went up to attend to the injured man and found him suffering considerably, the room being small and very hot with no conveniences for taking care of him. The fire patrol was called and the injured man taken to the hospital where he could have proper care.

Says He Retired Safe.

O. P. Dillon, an operator employed by the Illinois Central Railroad Company, in Storm Lake, Iowa, disappeared three days after the robbery of the American Express Company's safe two weeks ago, and who was arrested early today, confessed to Assistant General Manager Robert M. E. Cowie of the express company that he broke into the express office and took \$1,000 worth of blank express orders, money and other valuables from the safe.

Shingle Storehouses Burn.

St. Paul, Minn., July 14.—Fire destroyed five large and three small buildings formerly occupied by the Chicago Great Western railway as repair shops at South Park, just outside this city, and in addition destroyed about 300 carloads of shingles, causing a total loss estimated at \$200,000. The buildings had been used as a storehouse by the Coast Shingle company.

President Has Quiet Day.

Canton, O., July 14.—The President had a quiet and restful day. He took his usual drive and spent much time enjoying the cool breezes that swept over his porch. There were no official and no political visitors and only a few calls. Colonel Webb C. Hayes has joined the family at the house for a visit.

Over 100 Years Old.

Mrs. Phoebe Maxson of Milton, has been entertaining her aunt, Mrs. Fish of Embarrass, Wis. Mrs. Fish will be 101 years old next September and notwithstanding her extreme age is quite well. She is traveling around visiting her relatives and accompanied Mrs. Maxson on a visit to Walworth.

OMAHA MAN IS WILLFULLY KISSED

The Good Looking and Affectionate but Guilty Young Woman Promptly Thrown in Jail.

Omaha, Neb., July 14.—Miss Fern Atwood, a very good looking young woman, is in a cell at the city jail, the charge against her being "kissed a man willfully and without his consent having been first obtained." The man who was kissed is Capt. Her, who was walking down Dodge street today. He saw a young woman approaching. She stopped stepped in front of him, spread out her arms and a moment later clasped him in her embrace, implanting a kiss squarely upon his lips. Somewhat shocked the captain broke away. The young woman again grasped the captain in her embrace. This time she did not stop until she had stolen one, two and even six kisses. Then she broke away and ran laughing down the street. Later she was arrested and locked in jail.

CATTLE DYING BY THOUSANDS

Unable to Secure Either Food or Drink in Southern Arizona.

Los Angeles, Cal., July 14.—An era of hot weather that surpasses in intensity the drought during 1892 is sweeping over the southern portion of Arizona, despoiling the land of all food for cattle. To add to the suffering that is entailed upon the herds, every water hole and most of the wells have completely gone dry.

In consequence the cattle are dying by thousands and their shrunken frames dot the desert country of Pima, Pinal, Santa Cruz, Yuma, Cochise and parts of Maricopa counties. Not a drop of water is reported in the Gila and in the San Pedro, from Benson to its confluence with Salt river, near Phoenix.

Not one tenth of the harvest will be secured. So dry is the air and so inflammable have the forests on Santa Catalina become that fire is ravaging hundreds of acres of timber.

REACH 135,000,000 BUSHELS

Expert Reports on the Crop in the Three Spring Wheat States

Minneapolis, Minn., July 14.—H. F. Jones, in a conservative review of the crop situation in the northwest printed in the Journal after personal inspection of the fields, predicts that the yield of wheat in the three spring wheat states of Minnesota and North and South Dakota will at the very least reach 135,000,000 bushels, as against 210,000,000 last year, and that with favorable weather during the ensuing four weeks, the yield will reach 150,000,000 bushels. This is the highest estimate yet made. Mr. Jones maintains that the soaking rains of the first days of July have worked wonders.

BRITISH LOSS VERY HEAVY.

Details of Disaster to Lincolnshire Regiment Creep In.

TWO THIRDS OF MEN MISSING.

Attack of Boers at Daaspoort on Wednesday a Masterly Effort—English Expended All Ammunition and Then Wait Assault with Bayonets.

Pretoria, July 14.—Col. Mahon, reinforced by Gen. French's brigade, took all the position held by the Boers in the neighborhood of Retfontein. A number of Boer dead were found. The British casualties were trifling.

Details are now at hand regarding the disaster to the Lincolnshire regiment on Wednesday. It appears that five companies were ordered Tuesday to proceed and hold the pass through Magalesburg in the neighborhood of Daaspoort. They arrived at the pass in the afternoon, where three companies with two guns took up a position and camped for the night, leaving two companies on a plain south of the pass. The eastern hill was rugged, rocky and inaccessible, but further east apparently approachable from the main ridge. At day-break yesterday the Boers appeared on the eastern kopje and opened a heavy fire. Confusion ensued. The colonel ordered the men to take up a position on a kopje west of the gap.

Under Hot Fire All Day.

From this point a hot fire ensued during the entire day. Two guns, under the escort of the Scotts Greys, placed in advance of the main body, were captured after a stout resistance. Nearly every man was killed or wounded. A Maxim gun was brought into action early in the day. The fire was too hot, and the men were finally forced to retire. A sergeant, aided by seven volunteers, saved the gun. There was a continuous fire all along the line, the Lincolnshire regiment men vigorously replying. About 8 o'clock in the afternoon the Boers appeared to the left of the position occupied by the British. An officer and fifteen men attempted to charge them. Fourteen men were killed or wounded as a result of the charge. Three companies were practically surrounded, but they kept up a steady fire unwaveringly until toward nightfall, when their ammunition had been expended.

Waiting with Fixed Bayonets.

The latest arrival from the scene says that at the moment of his escape the men were taking a good position under cover and with fixed bayonets were awaiting the approach of the Boers. It is understood upon good authority that the Boers have employed armed natives. Two of the natives leaped from cover, when a small party from the Lincolnshire regiment stepped up and demanded their surrender. A soldier stepped forward and shot both of the natives dead. One officer, who succeeded in making his escape, had an encounter with an armed native. It is feared that the losses of the natives were numerous. About thirty of the British struggled back to camp today. According to all accounts a great force is being assembled to prevent further progress of the Boers. Commandant Grobler, who commanded the federals at Nitral Nek, had four guns.

To a sick man. He's hobbled, hampered, handicapped by his sickness. Every little while he has to lay off for a day.

He can't get ahead. Every body passes him in the struggle for success. If sickness originates in a diseased condition of the stomach (and most sickness does) there's a cure for it. Dr. Pierce's Golden Medical Discovery is not a cure-all, but a medicine specially designed to cure diseases of the stomach and organs of digestion and nutrition. It cures many forms of disease, because many forms of disease originate in a diseased condition of the stomach and digestive and nutritive system.

"I write to tell you of the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery," writes Mr. C. B. Bird, of Byrnside, Putnam County, West Va. "It cured me of a very bad case of indigestion associated with torpid liver. Before I began the use of 'Golden Medical Discovery' I had no appetite; could not sleep or work but very little. The little that I ate did not agree with me; bowels constipated, and life was a misery. I wrote to Dr. Pierce, giving the symptoms, and asked for advice. You advised me to try the 'Golden Medical Discovery,' so I began the use of it, and after taking four bottles I felt so well that I went to work, but soon got worse. So I again began the use of it, and used it about eight weeks longer, when I was completely cured. I took in all about twelve bottles of the 'Discovery,' and some of Dr. Pierce's Pleasant Pellets in connection with the 'Discovery.'"

Dr. Pierce's Pleasant Pellets keep the

march the mounted infantry engaged 200 Boers, shelling a ridge occupied by the burghers. It is anticipated that this movement will clear the country from Standerton to Heidelberg, as the troops found but one remaining laager, from which the Boers retired hurriedly.

TELL OF THE FIRST HEARING.

Witnesses Recount Jester's Actions, When Arraigned.

New London, Mo., July 14.—The fourth day of the Jester trial began this morning. Several witnesses who were present at Jester's preliminary hearing at Wichita nearly 30 years ago testified to his strange conduct at the time of being arraigned. Charles Hazelhurst, who was the first witness called to the stand, testified that Jester was struck dumb in court, and that the session had to be adjourned until he could recover his composure. Azel Gates, the father of the murdered man, corroborated Hazelhurst's testimony, and said Jester's conduct was so peculiar as to create laughter in the courtroom. Attorney Cullen of the defense then asked Mr. Gates if he was furnishing the money for the prosecution, whereupon Attorney Forrest of Chicago said: "The means for the prosecution are furnished by John W. Gates of Chicago, and we are proud of it."

Peary, who is in the arctic regions in quest of the north pole, but there was much disappointment felt by the crowd which was waiting for the bark at the wharf when Capt. Smith announced that he had no news from the explorer.

Lincoln, Neb., July 14.—Mr. Bryan does not expect to make any speeches in advance of his notification. Mr. Bryan is spending much of the time in his library with his stenographer, working on material for the campaign. Charles A. Towne has been with him part of the time, which leads to the belief that the Minnesotan will be one of the most active lieutenants in the campaign. Mr. Bryan's visitors this morning were limited to state politicians.

Schreffler Case Falls Flat.

Joliet, July 14.—In the Schreffler trial, Mrs. Edit Zentarski, the prosecuting witness, completely broke down. It was thought her testimony would almost convict Schreffler by itself, but during the cross-examination the witness confessed that she did not know the full nature of the charges against her brother-in-law. None of her evidence was damaging. Attorney Reynolds, for the defense, moved for a dismissal of the case, and Justice Petty will announce his decision today. If he does not grant it, the defense will put Schreffler on the stand, and his version of the case is expected to gain a discharge.

Capt. Houty Tried Suicidal.

Seattle, Wash., July 14.—The United States revenue cutter McCulloch returned from Nome minus its commander, Capt. M. A. Healy. The latter is confined in the marine hospital at Port Townsend. Returning from Dutch Harbor Capt. Healy attempted to take his own life by cutting the arteries of his right arm. The officers of the McCulloch declined to discuss the affair saying the whole matter had been laid before the department at Washington.

Ingram and Miss Sims went buggy riding and they were overtaken by Darnall, who dared Ingram to fight, with the girl as a witness. Ingram got out and was struck with a knife, and as he started to run Darnall followed, cutting him six times. Darnall escaped arrest.

Decoy Telegram Results in His Capture by Detectives—Prisoner Confesses to Details of Crime Near Wickliffe, Ky.—Outlaws Not All Caught.

St. Louis, Mo., July 14.—After a running fight with revolvers over housetops in Finney avenue in the aristocratic west end residence district between Charles M. Murray, chief of the Illinois Central railway detectives, and two men, supposed to have robbed the train near Wickliffe, Ky., George W. Barnes was arrested here. John Nelson, the other man wanted, escaped. Forty shots were exchanged before the fugitive escaped. Blood spots along the sidewalk indicate that he was wounded. Murray was hit in the arm and thumb. He was removed to the Mullinphy hospital, where his wounds are pronounced serious but not necessarily fatal. Throughout the encounter Nelson displayed wonderful nerve. When trapped in his house he refused to surrender and jumped from a third-story window into his back yard, not knowing that detectives were concealed there. He averted an injury and got to his feet in time to draw his revolver on an approaching detective. Both fired at the same time. Nelson then turned and fled, firing and receiving the fire of the other detectives, who pressed close upon him. He ran through an alley and then to the railway tracks, where he disappeared.

Barnes was taken in his home by means of a decoy telegram. He went quietly with the officers and this afternoon confessed that he was one of the men who participated in the robbery of the train. He implicated Nelson, who escaped, and one Dyer, who came here from San Francisco. The robbers secured about \$10,000. Barnes made no statement as to what became of the money. He says the plot was hatched in St. Louis. Barnes admitted he went to the scene of the robbery on an Illinois Central train and was joined there by Nelson and Dyer. When the train which they had decided to rob approached they flagged it. He covered the fireman with a revolver, while Nelson and Dyer went through the express car. Mrs. Barnes and Mrs. Nelson will be subjected to a further investigation by Chief Desmond. It developed that Nelson and Barnes are cousins.

Robber Saved Messenger's Life.

G. F. Hickox, an express messenger, who was in the car that was robbed, called at the Four Courts at noon and partially identified Barnes. He told a story about his life having been saved by one of the robbers and stated that he felt under obligations to the bandit. Hickox said Barnes resembled the man who interfered and saved his life, but he could not identify him positively. Mrs. Barnes called on Chief Desmond. She told him her husband had left the city Tuesday, July 3, and returned Thursday night. She did not know where he had been, she said. Mike Conley, alias Doyle, who confessed to Chief of Police Mahoney at Cairo, Ill., that he was one of the three men who held up the train at Wickliffe, said he met the others at St. Louis, where the robbery was planned. He had known the men about one year. A couple of weeks ago they wrote him to meet them in St. Louis, where they arranged the details of the plot. Since then he has been in Carbondale, Ill., and other places. His description of one of his partners fits that of Barnes, who is tall and thin.

Fugitives on a River Boat.

Right after the robbery Special Agent Murray and his men went to work on the case. At Cairo, when Conley was arrested, the detectives ascertained that Barnes and Nelson had taken a catboat on the river near Cairo and were making their way up the stream. The deserted the boat at St. Genevieve and boarded the Iron Mountain train for St. Louis, arriving in the city Thursday night.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them. The dread of ordeal through which the expectant mother must pass, however, is so fraught with pain, suffering and danger, that the very thought of it fills her with horror. There is no necessity for the ordeal of childbirth to be either painful or dangerous. The use of MORNING'S FRIEND during pregnancy so prepares the system for the event that it is safely passed without any discomfort whatever. This liniment has carried thousands of women through this great crisis without suffering, and they declare it a godsend to women. Send for free book containing information of priceless value. MASSACRE IN PEKING

Continued From page 1.

at Canton saying that the Chinese has engaged quarters upon the Chinese steamer Anping, but that the date of his departure for the north is as yet undecided.

Shanghai, Thursday, July 12.—The foreign consuls are offering large sums for the production of the letter which a Chinese merchant is said to have received from Peking, dated June 30, saying the legations were demolished and that the foreigners had been killed. The merchant declines to show it, alleging that he fears punishment from the Chinese officials.

Rioting is reported to have occurred at Ningpo, but no confirmation of the reports has been received.

Rosene Missionaries.

Che Foo, July 9, Via Shanghai, July 11.—Great joy reigns in Chee Foo, inspired by the safe arrival of every white missionary and every native preacher in the Tien-Tsin district hitherto unaccounted for. The steamer Shinfing of Chinese registry, but officered by Americans and English, brought in the refugees to the number of more than 200. They report that more 15,000 refugees to Tien-Tsin and Taku have been rescued from certain death by the allied forces of the powers.

The missionaries who arrived by the Shinfing are: Perkins, Crawford, Lewis, Babcock, Crawford, Hudson, Dawes, Tedder, Partch Burnham, Fitch, Faries, Parkes, Hayes, Porter, Moon, Lowe, Thompson, Lewis, Irwin, Ma-teer, Hastwell, Print, Stephen, Dutton, Owen, Drand, Mrs. J. B. Neal, and Cooper.

Every missionary in Shanghai province and every native preacher of the Methodist Tien-Tsin district is now accounted safe.

Situation in Manchuria.

The situation in Manchuria is more serious than has been supposed but the Russians are in such numbers at Port Arthur that they will have no difficulty in taking care of the rebels.

Klu Chau has been burned and sacked. The women and children are safe. Refugees arriving here say the Boxers openly drill in the outskirts of Port Arthur.

The chief of police of Port Arthur, who has gone to Tien-Tsin, says they are wrecking the new Russian railway in Manchuria, and pillaging the suburbs of Port Arthur.

It is said that the Chinese prefect of one Manchurian town slew the Roman Catholic bishop with his own hands, and looked on while several priests and nuns were killed.

Tien-Tsin to Be Abandoned.

A dispatch from Che-Poo July 9 says: "The situation at Tien-Tsin is desperate. The commanders are calling for more troops, but the troubles brewing elsewhere render it improbable that they can be sent."

"Germany has been obliged to withdraw from Taku troops that were to have been hurried to the aid of Tien-Tsin. The reason for this is a report that a large body of 'boxers' is marching on Kiau-Chow, German territory."

CARKEEK THROWS LUNDIN

Swedish Strong Man Loses Two Falls to the Milwaukeean.

Milwaukee, Wis., July 14.—Jack Carkeek of this city won his catch as-catch wrestling match last night with Hjalmar Lundin of Chicago, the Swedish strong man. The match was the best two falls out of three and Carkeek won two straight falls. He had no picnic. The Swede kept him wrestling all the time and it was only by the exercise of his superior skill that he finally got both falls. Carkeek was in fine condition, weighing 186 pounds.

The Swede was said to weigh 205 and looked fifteen pounds heavier and very strong. He proved to be agile as well as strong too. Carkeek at once went after him but took twenty minutes of the hardest kind of work before he got the first fall, a flying one, in which Lundin went to the mat with a thud that shook the building.

ARTHUR WITH THE ENGINEERS

Head of the Locomotive Brotherhood Enters Milwaukee Conference.

Milwaukee, Wis., July 14.—Chief Arthur of the Brotherhood of Locomotive engineers is here to aid in the deliberations of the Wisconsin Central Engineers and firemen. According to the grievance committee of the engineers there is no strike in prospect among them. They have asked the officials of the road to correct the train schedules, which they dislike as at present arranged. They also want the pay schedules made more equitable. Their case has been referred by him to President Whitcomb. The men say that their treatment thus far by the officials has been very cordial.
